

OPERATING WATERBLASTING EQUIPMENT CAN BE POTENTIALLY HAZARDOUS.
SEE PAGE 121 FOR IMPORTANT SAFETY INFORMATION

SURFACE PREPARATION

STRIKER™

The Standard Striker is the perfect entry point for contractors who want to add a remote shotgun system to their fleet. The system offers a unique combination of portability and higher thrust capacity for maximum flexibility on the job site, at a fraction of the cost of other robotic options. This modular system combines a rotary shotgun arm and a wheeled base for easy mobility providing a powerful alternative to manual shotgun cleaning and surface preparation.

FEATURES:

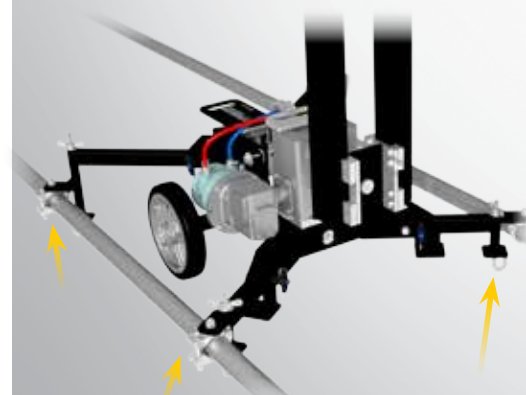

- Modular system designed for portability and easy assembly
- Remotely operated from outside the blast zone for safety
- Lightweight components for single operator setup and use
- Wheeled base for easy maneuverability
- Ergonomic control box offers intuitive remote operation
- Affordable alternative to complicated robotic systems
- No operator fatigue – higher productivity over time
- CE Certified

**Rotary nozzle and feed hose sold separately*

3-D CLEANING CAPABILITY
60 in. H x 84 in. W x 54 in. D
(1525 mm x 2134 mm x 1372 mm)

FULL WRIST ARTICULATION
Allows the “wrist” of the Striker to both flex 80 degrees and rotate up to 270 degrees.

OPTIONAL SCAFFOLD & J-HOOK MOUNTS
Can be mounted to scaffolding or grating.

MODULAR SYSTEM
Designed for portability and easy assembly.

CONTROL BOX
Allows safe, remote operation of high pressure waterblast equipment.

Tool Model	Pressure Range	Jet Reaction Force	Cleaning Window Dimensions	Weight
SKR-STD	Up to 40k psi 2800 bar	Up to 70 lb 310 N	52 in. H x 80 in. W x 46 in. D (1320 mm x 2030 mm x 1170 mm)	260 lbs 118 kg
